HELPERلي

Why Helperلي

- Shortage of housemaids in Lebanon.
- Families struggle to find trusted help.

The solution

Helperلي is a mobile app that:

- Connects households with available helpers.
- Allows helpers to create profiles & set hourly rates.
- Offers ratings and reviews.
- Provides background-checked workers.
- Enables secure digital payments.

SWOT Analysis

Strengths

- Solves real market gap.
- Flexible hourly system.
- Verified & rated helpers.

Weaknesses

- High initial development cost.
- Requires trust building.

Opportunities

- Growing demand for flexible help.
- Future regional expansion.

Threats

- Economic Instability.
- Easy to copy concept.

The ideal customer

- Working moms
- Busy professionals
- Dual-income families
- Students living alone (dorms)
- Elderly households

Target Age: 18+
Location: Urban Lebanon (Beirut, Metn, etc.)

Social sustainability

- Partner with NGOs.
- Provide fair work opportunities.

Environmental sustainability

- Introduce eco-friendly cleaning option.
- Offer chemical-free detergents to helpers.
- Promote sustainable household practices.

Marketing plan

1. Digital marketing

- Instagram & Tiktok ads
- Influencer Collaborations
- Paid targeted campaigns

2. Promotions

- Nurseries
- Gyms
- Schools/ University
- Residential Buildings

3. Partnerships

- First booking discount
- Referral program
- Loyalty Rewards
